Being on trend is over-rated. If you are "on trend" it means someone else got there first. This catalogue is about equipping our loyal customers to be ahead of the game and setting trends that others follow. We have handpicked high quality and truly unique ranges from Turkey, Australia, Italy and the USA. It is with great pride that the Erwin's team and I present the Spring 2022 Tableware Guide to you and your venue.

Many thanks,
Tristan Hinds

EXCLUSIVE TO ERWIN'S

Iris

BONNA PREMIUM
PORCELAIN

"We've invested in Iris because we wanted to introduce a dining ware range that is creative and elegant yet doesn't overshadow the chef's creativity. The plate and bowl should be there to create space for the food to flourish. Iris does this while subtly avoiding the mundane."
— Tristan

Chef and Sommelier Glassware

“When it comes to stemware traditionally one must choose between aesthetics and durability. Chef and Sommelier turns this either-or into a both-and with the ‘open up’ range. This toughened crystal glass is produced from a single piece mould reducing breakages whilst at the same time offering a sophisticated and unique aesthetic. The sharp curvature in the bowl ensures your guest opens their palate completely to experience the bouquet of each wine.”

— Tristan
